

G350 PCB fit template

Print at 100% / Actual size. Disable Fit to page.

Provisional dimensions - original shell fit is unverified.

50 mm calibration bar - measure after printing

Main body: 76 x 99 mm. Lower speaker tab: 22 x 19 mm.

The upper corners and lower shoulder edges are chamfered.

Published outside enclosure: 81 x 128 x 22 mm.

Outside dimensions do not define the internal cavity.

Placement and mechanical study only; fabrication release remains incomplete.
